Three State Buildings, the Children's Home and the Electrical Display Opened.

Special to the Indianapolis Journal. CHICAGO, June 1 .- To-day's attendance did not swell to a great amount the grand total of the month of June which is expected by the exposition officials. This is attributed to the inclement weather, the day being liberally endowed with showers. Although it was an "open evening," the crowds did not run therisk of being soaked even for the first glimpse of the beauties of Electricity Building, which was thrown open to-night. The paid admissions to-day numbered but 35,555.

There was no open air music until late in the afternoon, when Sousa's band managed to work in a few pieces between the showers which kept the crowd scampering back and forth from the stand to shelter in the big buildings bordering on Administration Plaza. The day on the whole was quiet, the only incidents worthy of note being the dedication of the Children's and Kontucky State buildings, the opening of the California State Building, the display in Electricity Building and the German exhibit in Machinery Hall and the opening of the Minnesota State Building.

in the presence of a great crowd which thronged the pretty structure and overflowed into the muddy street. The crowd of Kentuckians and their handsome wives and daughters was increased just at 3 o'clock by the arrival of the "Bluegrass" Bilitors in great numbers. President Dulaney, of the Kentucky world's fair board, led off by delivering an address, at the plose of which he formally tendered the building to Gov. John Young Brown. After a little more music the Governor accepted the building on behalf of the Commonwealth, and, after declaring it dedipatives, turned the building over to the exposition officials. The oration of the day was delivered by Col. W. O. Bradley, a famous orator from the State "just across the river." The exercises took place around the statue of Henry Clay, which stands in the rotunds of the building, and at their conclusion the party returned to the lawn and piazzas, where took place the unveil-ing of Daniel Boone's statue. On this ocpasion the principal address was delivered by Col. R. T. Durrett, president of the ilson Historical Club. After the cerepionies were over the invited guesta repaired to the Kentucky room in the Woman's Building, where an informal luncheon

The Minnesota State Building was deplared open by the commissioners without ceremony. Dissatisfaction has been occasioned by the farcical dedication of the building by the Minnesota Press Asociation on it vists to the fair a week or so ago, while an elaborate programme for the ceremonies was being prepared by the pommissioners. Governor Nelson was not inclined to favor another dedication, so the building was simply declared open.

According to the California idea the ded cating of State buildings is now so passe that the men from the Golden State decided to do away with any official demonstration and open their building without show. The quaint and spacious building was crowded all day with visitors, who found among the exhibits many things which are seen nowhere else on the grounds.

The home of the little folks was opened with simple exercises. The building is under the supervision of Mrs. Bertha Honore Palmer, Mrs. L. Brace Stattock, Mrs. Solomon Thatcher, jr., and Mrs. W. W. Kimball, and the programme was carried out | fair on Sandays. Director of Works Burn oblidren under the leadership of Miss Huntington gave an interesting drill in the gymnasium on the first floor, after which lunch was served. The Children's Building is a typical kindergarten, and every contrivance imsamable to interest and instruct young folks has been secured. The large children will be given the benefit of a gym-Dasium on the first floor, and adjacent rooms have been fitted with cradles and cribs, which, it is expected, will be used extensively. Visitors at the fair who have children can leave them here. No children under two years of age will be admitted. The Japanese commissioners have donated a large number of doils, and juvenile literature has been furnished by the German commissioners, Illinois donsting the book cases. The building was erected at a cost of \$45,000. The playground is on the roof. which is furnished with swings and hammocks. A trained corps of nurses will be in constant attendance on the children.

The formal opening of the Electricity Building, which has been so long deterred, took place to-night. The feature of the display was the unveiling and lighting of the big Edison tower erected by the General Electric Company. This shaft is situated in the exact center of the building, and represents the hignest achievement of the incandescent lamp. It extends into the ground arch formed by the intersection of the nave and transept, reaching a height of about one hundred feet. The methods used in construction have resulted in showing a perfect column, as though the entire shaft were hewn from one massive block of stone. It springs from the roof of a colonnaded pavilion surrounding the place, and the entire interior is strewn with thousands of incandescent lamps, as many-hued as the western sunset. The colors are arranged by mechanical methods capable of being flashed in harmony with crowned with a well-proportioned replica of an Edison incandescent lamp, formed from a muititude of prismatic crystals. Upward of thirty thousand of these beautiful jewels are strong on a frame, and are all lighted from the interior by a large number of incandescent lamps. The effect produced is marvelous, and can only be appreciated when seen.

There has been considerable rivalry among the exhibitors in arranging the most artistic displays. One of the most unique and attractive is the Egyptain temple, illuminated by one thousand incandescent lights, none of which are discernible. twenty-four hours of the day are shown. or telegram to his address.

Lightning is practically demonstrated, the bright flashes darting from one metant to another. The foreign countries are represented in the building largely, the French. German and English displays being especially attractive. The grounds were illuminated to-night and the electrical fountains played.

With the opening of the German section in Machinery Hail to-day the display made by the German empire was declared on exhibition in every department of the fair. Germany's section in liberal arts was opened ten days ago, its building in the foreign section during the last week of May, the chocolate pavilion in the Agricultural Building last week and the machinery exhibit at 2 o'clock this afternoon. The ceremonies were brief and barely formal. The German band came from the village in Midway Plaisance, and played one or two selections. Herr Wermuth made a brief address and then the machinery was started. The exhibit consists of mining, wood working and printing.

All is now serene in the musical department of the fair. The demand of the national commission for the resignation of Theodore Thomas has been recalled and the musical director will continue his duties as a subordinate of Directorgeneral Davis, whose authority he was inclined to dispute. Mr. Thomas does not resume his duties without some restrictions. The council of administration will see to it that manufacturers sending pianos to the fair will reocive fair treatment, and that concerns which have been conspiring to ruin the display of the musical instruments are not allowed to reap all the honors at the exposition. The case was settled this afternoon. Six members of the board of control, representing the national commission, and an equal number from the Chicago directory, comprising the board of reference, came to an agreement after a long and bois terous session.

Vice Chairman King, of the committee on awards, sent a communication to the board of control to-day, that was accepted as a complete surrender to the demands of the foreign commissioners. After declaring that the system adopted is already in actual operation, the communication says:

There is absolutely no foundation for the statement that an individual judge decides an award. In every instance the decision rests with the departmental committee of international judges. That committee exercises purely and originally a jury function. It can alter, modify, accept or reject the report of the individual judge; it can itself, as a body or through a committee, re-examine and review the exhibit primarily examined by the individ-Kentucky dedicated her State building | ual expert. Furthermore, the executive committee on awards will cheerfully appoint, at the request of the departmental committee, three, five or more judges on the occasion of this pri-

Meeting the objection that foreign judges cannot be summoned at this late date, Prof. King says the committee will postpone the assembling of juries until July 15 or Aug. 1.

WORLD'S FAIR INJUNCTION SUIT. Justice Brewer on the Beach Yesterday-Ar-

gument of Mr. Aldrich. Special to the Indianapolis Journal. CHICAGO, June 1.—The proceedings in the United States Circuit Court to determine whether or not the world's fair may be legally opened on Sunday were continued to-day. That the interest in the matter is unabated was evidenced by the throng that packed the court room and its approaches, many ministers of the gospel

being conspicuous by their occupancy of the front benches. Justice Brewer sat with the other judges to-day. Argument in behalf of the government was resumed when the judges had taken their seats, ex-Solicitor-general Aldrich being the speaker. Various acts of Congress, he said, demonstrated that the fair was not only international, but essentially national, and that the government had never viewed it as a local enterprise or intended to surrender its control to a local corporation as a private venfact that the exposition had been located at Chicego by act of Congress and not as the result of any local decision, and insisted thas the proposition to localize the exposition gave a negative to all the acts passed by Congress and all the financial assistance rendered. As a matter of fact he held the local corporation had no authority over the exposition, not even in the matter of regulating admissions, save the authori-

> Olney Asks Mi christ to Explain, Washington, June 1.-Attorney-general

Olney was somewhat surprised that an injunction to close the world's fair on Sunday was not applied for by United States District Attorney Milchrist last Saturday, and he therefore telegraphed him for an explanation. When Mr. Milchrist left Washington he had explicit instructions to ask for an injunction. In a letter received today from Mr. Milchrist he explains that the time elapsing between the preparation of the bill and Sunday was so short that proper notice could not have been given to the public; the judges, too, wanted the matter postponed until Chief Justice Fuller could sit with them; and for these reasons he had refrained from presenting the request for an injunction to the federal court.

Illinois Bank Robbed.

Ava. Ill., June 1.—To-day, at noon, the bank of Ava was robbed of about \$3,000 while the bank employes were at dinner. The robbers gained entrance by prying open a window. They then took the money out of the safe, which was unlocked. The cashier was not away twenty-five minutes. No trace of the robbers can be found.

YESTERDAY'S RACES.

Prince George, Chorister and Banquet Win the Big Events at Morris Park.

MORRIS PARK, N. Y., June 1.-There were at least twelve thousand people present at the Morris Park track to-day, and fully five thousand people came to see the Princess Eulalia watch the races. The other seven thousand paid but little attention to the royal visitor. but devoted themselves to picking winners. The programme had two features, the Toboggan Slide handicap, which included all the tast sprinters, and the Sea and Sound stakes, in which some of the best of the three-year-olds were entered. The Mars - Banquet duel in the second race was a grand one. Banquet outstayed his rival, who was all out at the finish. The time was very fast. The Toboggan Slide handicap proved a surprise. Yemen was backed as though it was all over. There was a delay of full twenty minutes at the post before the red flag went down and the thirteen contestants began the struggle for the rich Toboggan Slide stakes. Prince George won after a severe struggle, by a length. Prince George is the property of Richard Croker. The Sea and Sound stakes was won by Chorister, who was a length and a half from Governor Foraker. Results: First itage-Five-eighths of a mile. L. Rosemary first, Glance second, Strath Flower third. IVES NOW IN THE LEAD.

The American Billiard Player Scored 1,540 Points in One Run Last Night.

London, June 1.-Ives did magnificent work this evening at the international billiard match at Hinley's circus. He got the balls jammed and scored 1.540 points in one rup. His play throughout the evening. moreover, was neat and steadier than before since the beginning of the match. The score now is: Ives (still playing), 4,001: Roberts, 8,484. At the close last night the score was: Roberts (still playing), 3,000; Ives, 2,243,

The attendance was good this evening, and both men were on their mettle. Roberts's first runs were 34, 13, 21, 21; Ives's, 19, 15, 19, 36. Ives then fell off, his best runs being 25 and 45, while Roberts made such runs as 67, 49, 21, 31, 34 and 139. After mak-ing ten caroms, Ives finally got the balls wedged at the upper right-hand pocket, and played from one to the other with the utmost lightness of touch. When the play was adjourned the balls were in the same position. Ives will continue his run to-morrow. The long run was exceedingly monotonous, and the spectators and many billiard experts protested that such play-ing ought to be barred.

Roberts is disgusted on account of the turn matters took this evening. After the close of the play be said that he would another game of 2,000 up for 1500 or £1.000. leaves Indianapolis daily at 4 P. M. via Pennthe conditions to be the same, except that I sylvania Line. Try it.

the cannon stroke be barred when the balls should get jammed in the jaws of a pocket. Ives declined Roberts's proposition.

The Sportsman says: "Ives evidently meant business, and was smarting from having had a cannon decided against him earlier in the evening. The balls are peculiarly piaced. They do not touch; the white one is well in the top shoulder and the red one certainly well on in the jaws. It appears that Ives can continue till it

GUNNING AND FISHING.

pleases him to stop."

Cleveland Slaughters a Few Shore Birds and then Yanks Out Drum and Blue Fish.

CAPE CHARLES, Va., June 1.-After a good night's rest at the Broadwater Clubhouse the presidential party arose very early this morning, and were breakfasting at 6 o'clock, attired in their sporting clothes, ready to make an early start for the north end of Hog island, where sail boats were in waiting for another fishing trip, but upon arrival there the bay was found to be too rough for comfort, and it was decided to spend the forenoon along the beach, shooting snipe, curlew and other beach birds, which were flying in small flocks. They had brought their guns and ammunition along, and this sudden change did not mar the sport, and the birds were soon falling, the President killing his share.
At 11 o'clock the bay was somewhat smoother and a fishing expedition was begun at the north end of the island, where the President found such fine sport yesterday. At 6 o'clock the party bauled in their lines, after catching ten large drum, several blue fish and a good many sea trout and other small fish, and spent an hour or two sailing about the bay.

WERE THEY MURDERED?

Four Mormon Elders Chased by Indignant Georgians and Probably Shot.

ATLANTA, Ga., June 1 .- For some time Etowah, Blount and St. Clair counties have been the scene of an active Mormon propaganda, conducted by Elders Ben F. Bebaron, Nicholas Miller, A. M. Beacher and Alonzo Brinkerhoff. They were to conduct a mission near Pinckney, last week, but were ordered to leave by indignant citizens. A recent convert named Battles offered the elders an asylum in his house. Several nights ago a mob went to Battles's house and demanded the surrender of the elders. The Mormons escaped through a back door. The mob followed them, and gurshots were soon heard in a distant wood. The disposition of the mob, its apparent satisfaction with its work. and the failure of the elders to reappear, is held as convincing evidence that they have been done away with.

WEALTH IN AN UNCLAIMED VALISE.

An English Painter Purchases \$107,000 Worth of Par Bonds for \$2.

MONTREAL, June 1. - Lee Stanton, an English painter, bought a leather valise for \$2 at the Grand Trunk railroad sale of unclaimed baggage. On opening it he found 107 shares in the Western Gas Improvement Company, of Chicago, fully paid up, and worth \$107,000. The valiso was the property of Louis Halberstadt. who died in Brockville. Ont., in October, 1891, of alcoholism. He went to Brockville from Napierville, Ill. A large sum of money and some jewelry, which he was known to have had just prior to his death, were missing, and it was generally believed at the time that he had been robbed.

GLASS FACTORIES WILL SHUT DOWN.

So Overstocked that Suspension for an Indefinite Period Is Necessary.

Prinsburg, June 1.-The Dispatch will say to-morrow that it has it on good authority that a general shut down of the plate-glass factories of the country wil take place within a month to last for an indefinite time. It is said the factories in the combine have become so overstocked that a suspension of work is an absolute necessity, not merely because of dull trade. but because the companies have no longer any room to store their unsalable product.

Has Power to Issue Bonds. NEW YORK, June 1 .- The Sun prints the following: "One of President Cleveland's closest friends said yesterday: "In view of the different opinions as to the President's power under the resumption act concerning an issue of government bonds, Prestdent Cleveland has had frequent consultations of late with Attorney-general Olney on the subject. The President has always maintained that he had the power to sell bonds, but arguments disputing this have come from such able authorities that he determined to request a brief on the subject from Mr. Olney. The Attorney-general has favored the President with an exhaustive statement, in which he clearly sets forth his opinion that the President has full power to issue bonds. In fact, Mr. Olney's opinion makes it mandatory upon the President to act in certain circumstances."

Consul-General Judd's Case.

WASHINGTON, June 1.-It appears, from a recent dispatch received at the Department of State, from Colonel Grant, United States minister at Vienna, written with reference to published reports alleging the unwillingness of the Austro-Hungarian government to recognize Mr. Max Judd as consul-general of the United States at Vienna, that such statements are wholly unauthorized. As a matter of fact the minister has been given to understand that no objection will be raised to Mr. Judd on account of his being of Austrian birth and of the Hebrew race.

Voorhees May Rouse a Lion.

Special to the Indianapolis Journal. Washington, June 1. - Senator Voorhees went to New York to-day to attend the meeting of the immigration committee. According to the Senator's own statements he will return here in a few days "to prove to Postmaster-general Bissell that Civilservice Commissioner Roosevelt is a — liar," and then he will go to his home at Terre Haute to rest on laurels.

General Notes.

WASHINGTON, May 31--It appears that the President is unwilling to permit Senator Allison to terminate his service as a member of the international monetary conference in spite of the Senator's often expressed intention of so doing, and the Senator may yet consent to serve. The Star says: "The President has indicated that he will probably call Congress together about the 1st of October instead

of the middle of September, as at first contemplated." Secretary Carlisle has during the past few days received several telegrams which fully confirm the newspaper dispatches as to the discovery of a conspiracy on the ex-treme northwest border to smuggle opium and Chinese into the United States. These telegrams intimate that quite a number of government officials, collectors of customs and special agents, are implicated in the conspiracy, which has been in successful

operation for some time past. The President has appointed Walker Allen, of Colorado. to be smelter of the United States mint at Denver.

Owing to the extra work necessitated in transferring the office of the United States Treasurer from Mr. Nebeker to Mr. Morgan, the figures necessary to prepare the monthly debt statement could not be compiled to-day. The statement will be issued

The total net gold in the treasury is about \$92.000,000. This leaves the so-called gold reserve invaded \$8,000,000. Indications point to further shipments of gold on Fri-

day and Saturday of this week.
